

Settings

year: 2009
 scheme: climb
 media: letter
 postcard: f
 tabs: true
 cycle: 2
 depth: 5

Popup version

0. Print small dodecahedron on heavy card, or cut out and glue to postcard.

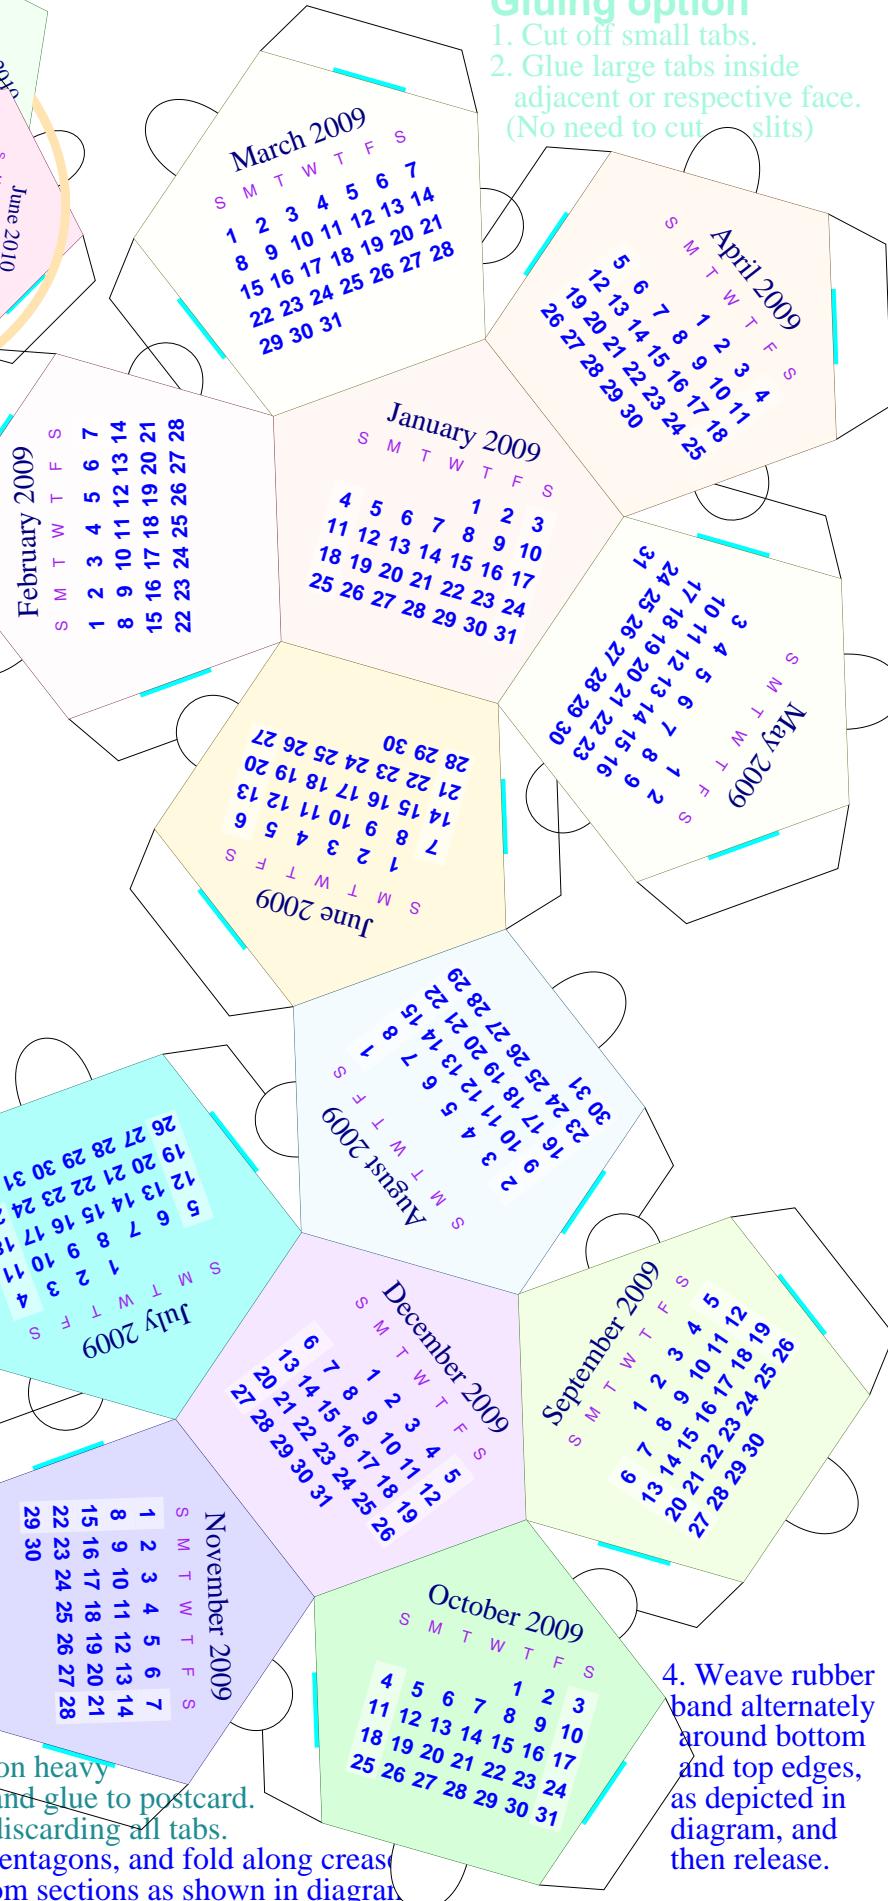

1. Cut out figure, discarding all tabs.
2. Crease between pentagons, and fold along creases.
3. Align top and bottom sections as shown in diagram.

Two dodecahedrons

1. Crease lines between pentagons, and between tabs and pentagons.
2. Cut figures out. Cut slits in big tabs along cyan mark.
3. Fold along crease lines.
4. Assemble by sliding small tabs into slits on large tabs.

Gluing option

1. Cut off small tabs.
2. Glue large tabs inside adjacent or respective face. (No need to cut slits)

4. Weave rubber band alternately around bottom and top edges, as depicted in diagram, and then release.
